

BOARD & ADVISORY PROFILE

Governance grounded in operating reality.

Abdul Kunateh, PMP, brings enterprise transformation, technology governance and multi-site operations experience to organizations making consequential decisions about growth and change.

Connecting People & Technology to Turn Strategic Intent into Measurable Business Outcomes

A PRACTICAL LENS ON STRATEGY, RISK AND EXECUTION

I help leaders turn strategic intent into clear priorities, accountable decisions and systems that work across complex organizations. My perspective connects board oversight with implementation, frontline adoption and measurable outcomes.

01 / CONTRIBUTION AREAS

Where I contribute

01 / STRATEGY

Enterprise transformation

Sequence change, clarify ownership and test whether investments can deliver durable operating value.

02 / OVERSIGHT

Technology governance

Frame technology choices around mission, risk, investment discipline and accountability.

03 / EMERGING TECH

AI operationalization

Connect AI use cases to ownership, controls, adoption and evidence of business value.

04 / RESILIENCE

Technology risk & controls

Bring program-level experience with technology dependencies, controls and risk reporting.

05 / EXECUTION

Portfolio & PMO governance

Improve prioritization, resource choices, executive visibility and delivery confidence.

06 / PEOPLE

Operational scale

Understand how systems, leadership and change perform across distributed teams and locations.

02 / MISSION ALIGNMENT

Where I hope to serve

Workforce & education

Immigrant and African diaspora entrepreneurship

Life sciences & health

Responsible AI & technology

QSR, retail & multi-site operations

Central Indiana community impact

Abdul Kunateh

Abdul Kunateh, PMP, is an enterprise technology and PMO transformation leader with experience across life sciences, cybersecurity, infrastructure and multi-site operations. His career includes Azenta Life Sciences, Pilot Company, Love's Travel Stops and Chipotle Mexican Grill. He brings a practical understanding of how governance, systems and people must work together for strategy to become results.

He founded Kunateh Impact and is developing AI to Enterprise, a practice focused on responsible AI adoption and portfolio governance. His board interests include workforce opportunity, immigrant entrepreneurship, education, health innovation and sustainable organizational scale.

FOUNDER / KUNATEH IMPACT

AI to Enterprise

An emerging advisory practice focused on **AI operationalization**: helping mid-market leaders establish ownership, prioritize use cases, govern risk and measure value as AI moves into day-to-day operations.

Its developing method is the **AI Governance & Portfolio OS**. This is an early-stage practice and a reflection of current thought leadership, not a claim of client engagements.

04 / EDUCATION & DEVELOPMENT

- Project Management Professional (PMP)
- Doctoral studies in Emerging Technologies, with a concentration in Generative and Agentic AI, Golden Gate University
- Executive development through Columbia Business School Executive Education, Northwestern University and Pilot Company's Future Leaders Development Program

BOARD & ADVISORY CONVERSATIONS

Open to nonprofit governance, committee work and focused advisory roles.
